

# Download Section 33 Cell Membrane Study Guide

## Answers

Lesson Summary. Specific to plant cells is a structure called the tonoplast. The tonoplast is the membrane that surrounds the central or large vacuole of the plant. Learn about the different tissues that are found in humans and plants. This lesson summarizes the four tissue types in humans and the three tissue systems of plants. 2015-09-13

Section Headings: Main Section Headings: Each main section of the paper begins with a heading which should be capitalized, centered at the beginning of the section, and double spaced from the lines above and below. Do not underline the section heading OR put a colon at the end. Example of a main section heading: Effects of Low-level Laser Therapy in HIV/AIDS-positive Patients After Exodontic Procedures. Journal of Oral Laser Applications. 2003; 3 (2): 109-115. Giovanni E M, Ferreira M C D, Souza R S et al The purpose of this study was to verify the efficiency of the GaAlAs laser in the stimulation of tissue repair and analgesic effect after tooth extractions in HIV/AIDS-positive patients.
