

Download The Liberator 3 D Printed Gun What You Need To Know

The Liberator is a physibible, 3D-printable single shot handgun, the first such printable firearm design made widely available online. The open source firm Defense Distributed designed the gun and released the plans on the Internet on May 6, 2013. The plans were downloaded over 100,000 times in the two days before the United States Department of State demanded that Defense Distributed retract ...The 3D-printed gun that sparked national debate shares its name with a little-known and little-used World War II-era pistol.Share This Story!
